

VEBKO ONLINE HELP

Modifying and Improving AMPro Software Translation

Category	tester
Section	Default Setting
Language	English
Generated	2026-10-18

First, from the software's start page, go to the Setting window, select the Cache tab,

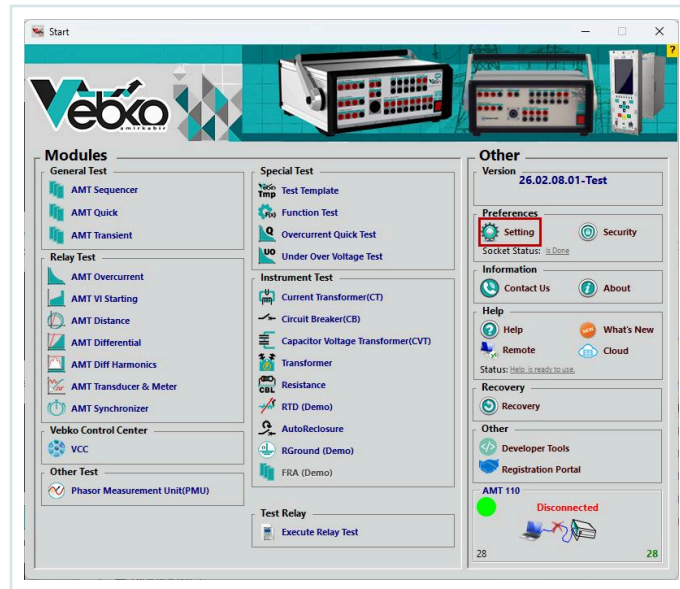

Figure 1

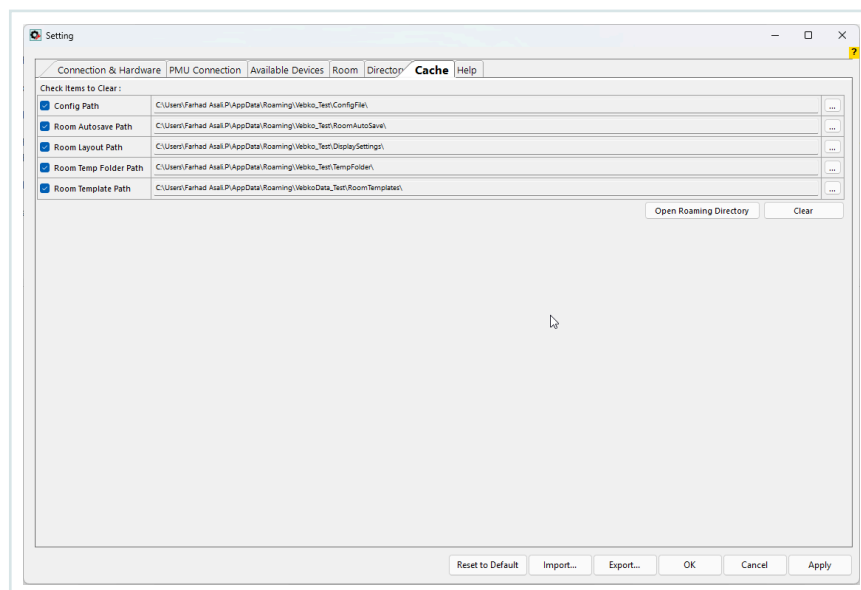

Figure 2

click on "Open Roaming Directory" to be directed to the file storage window.

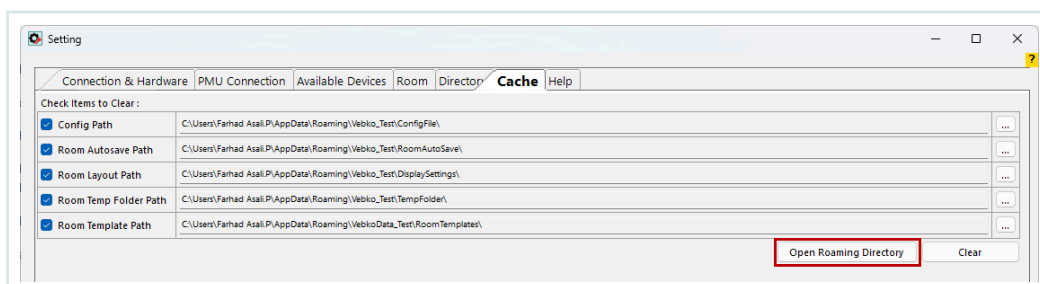

Figure 3

In the "Language" folder, open the Excel file where you can make the desired changes to the respective language. Finally, save the file with the CSV extension.

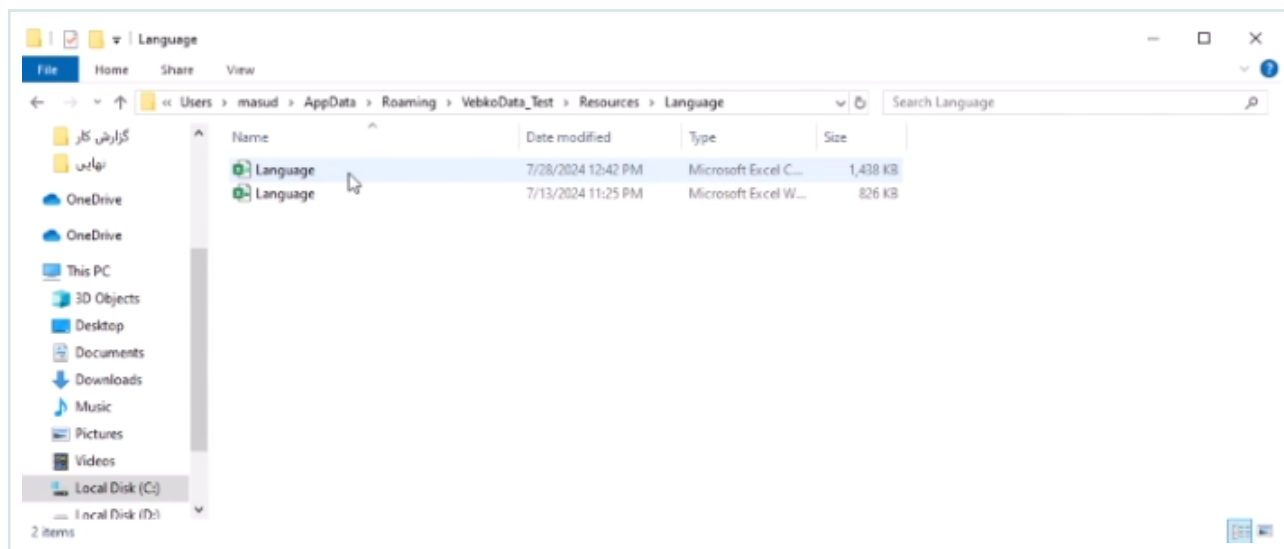

Figure 4

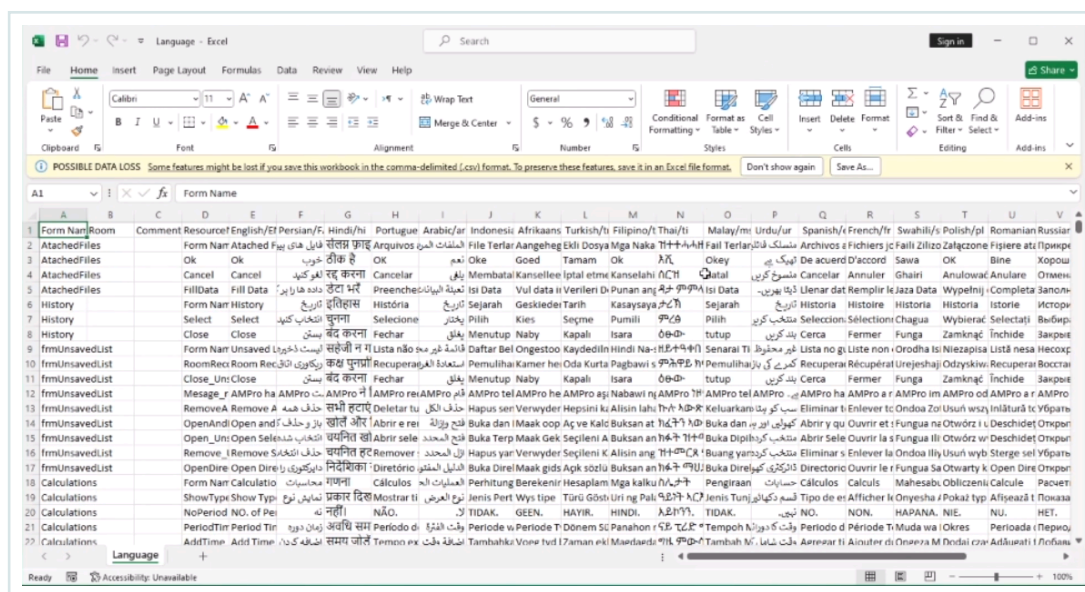

Figure 5

For example, in the "Circuit Breaker" room, the "Object Test" window, to change Test (s) in English, open the Excel file, make the desired changes, save the Excel file with the CSV extension,

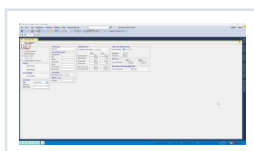

Figure 6

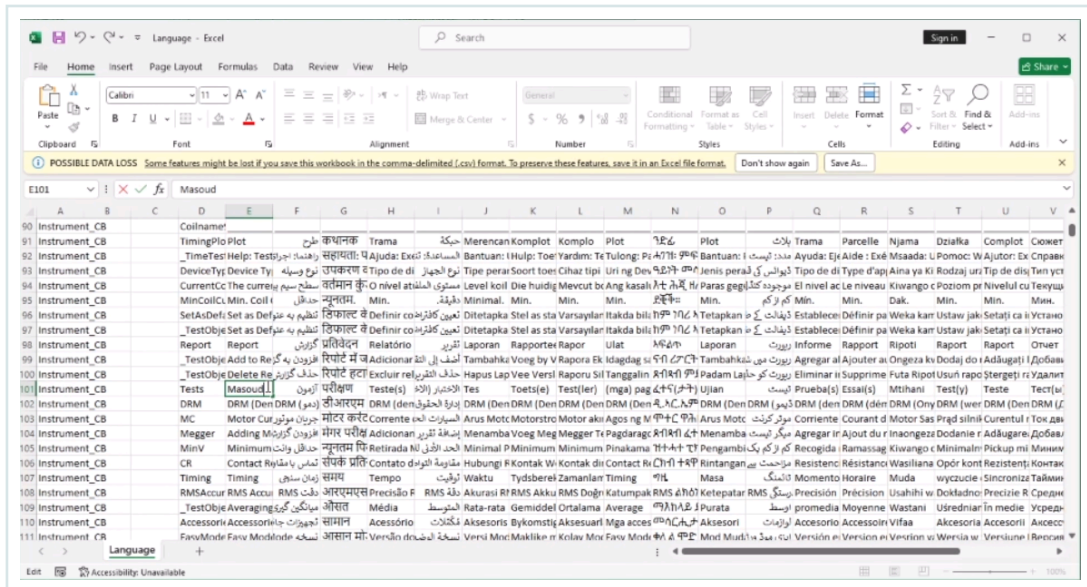

Figure 7

close and reopen the "Circuit Breaker" room to see the changes.

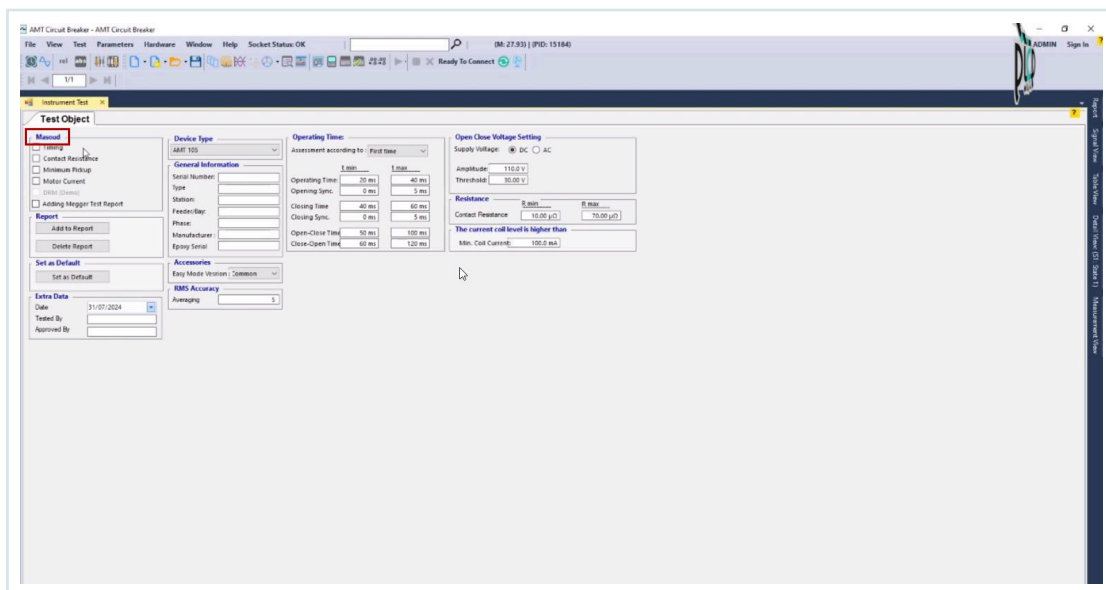

Figure 8

It should be noted that in the Excel file, the rows indicate the name of the respective section,

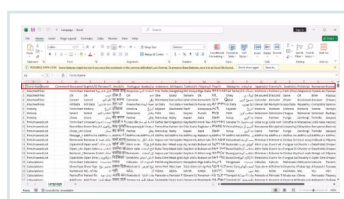

Figure 9

and the columns indicate the language.
